INTEGRATED SOLUTIONS FOR EMPLOYERS

PRA™
PSYCHOSOCIAL RISK ANALYSER
Diagnostics for Psychosocial Risk

END-TO-END PSYCHOSOCIAL RISK MANAGEMENT

From Theory to Action: PRAiSE™ + PRA™

Empower your organization to identify, calculate, and reduce psychosocial risks with this integrated system.

WHAT IS PRAiSE™?

A one-day interactive workshop supported by 6 theoretical learning modules, PRAiSE™ builds real-world capabilities in managing psychosocial risks in work tasks.

- » Learn
- » Realise
- » Discover
- » Measure
- » Design
- » Comply
- » Apply

WHAT IS PRA™?

A software risk calculator, powered by **ViVID Design Labs**, PRA™ is embedded in **ErgoAnalyst**. It enables teams to assess cumulative risk from occupational exposures, design targeted interventions, and measure resilience.

COMBINED BENEFITS:

- » Scientifically grounded & legislatively compliant.
- » Combines face-to-face learning with risk analytics.
- » Calculates task-based acute and cumulative risks.
- » Integrates physical and psychosocial risks while considering protective health factors.

WHO SHOULD USE PRAiSE™ + PRA™?

- » Operations Managers
- » HSE & WHS Teams
- » HR & Wellbeing Leaders
- » Risk and Compliance Professionals

TRANSFORMATIVE OUTCOMES:

- » Reduced risk severity
- » Sustainable work design
- » Integrated into existing WHS systems
- » Quantifiable psychosocial insights
- » Futureproof compliance with WHS standards

GET STARTED TODAY

Book your PRAiSE™ workshop, get access to the PRA™ tool and include psychosocial safety in every task-based risk assessment.
